Senior Club Goal Assembly Instructions

WARNING

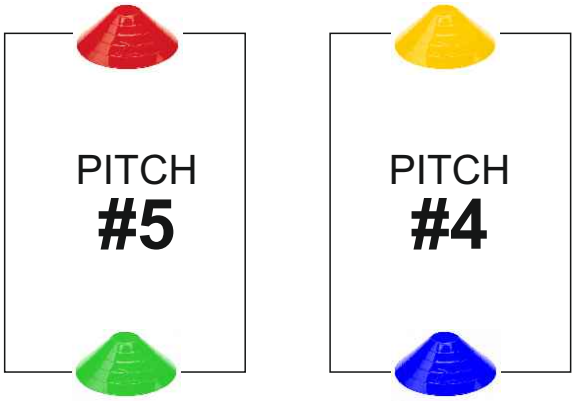
- Keep fingers away from hinges and joints
- To be used for restraining soccer balls only
- Do not climb on goals - it's not a toy
- Must be used with adult supervision

1 The goals are inside the Senior Club storeroom and you'll notice each set is colour-coded with tape.

You'll need:
- 2 side pieces
- 1 round cross bar
- 1 rectangle base bar
- 1 net (from the nearby wheelie bin)

2 Look to the coloured cones on the ground outside the storeroom, this is a colour coded mud-map of Pitches 4 and 5.

e.g.



3 Carry the pieces to the location, and lay the two ends with the rounded ends (crossbar) on the ground.

4 Line up the correct 'A' and 'B' ends on the crossbar, slot them in and secure using fastening bolt.

5 Pull the net out so it lays flat. Grab a white tracking clip (near the tags) and slide into the guide rail along crossbar, insert and pull each one until you get to the next tag.

Grab the white tracking clip that is furthest away from you, and pull them into the side rails.

6 Tip the goals over and insert the base bar and fasten with the bolts.

Move the goals just behind the line, and make sure it's centred to the goalie box (usually 5 paces out from each side)

Finally, slot in the 4 pegs at the bottom corners.
